Businesses Flip Over Online Advertising

According to PriceWaterHouseCoopers (PWC), "Internet advertising revenues for 2006 are likely to come in at \$16.8 billion... This figure would represent an increase of more than a third (34 per cent) over the \$12.5 billion taken in 2005, demonstrating the sharp growth of online advertising."

Will you be part of our new online format? Our loyal, growing readership guarantees you'll get noticed.

There are many cost effective ways to advertise in the new online Beachwood Voice; banners, pay-per-click ads, pay-per-visit ads, and more. Our use of Rich Media will allow your ad to come alive on our new active website launching this summer.
